

Bosch ID New Login Steps

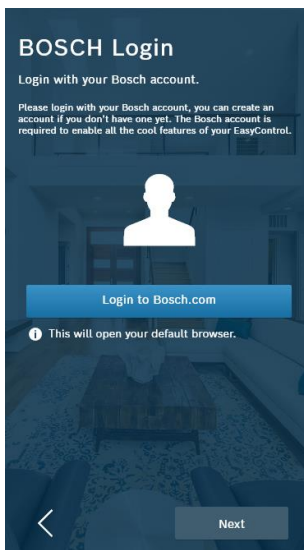

Step 1: Start the New Login procedure

- On the New Login screen press “Next”:

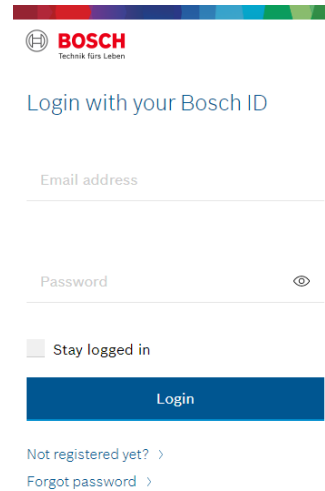

Step 2: Log in to your Bosch account

- Press “Login to Bosch.com” on the BOSCH Login screen:

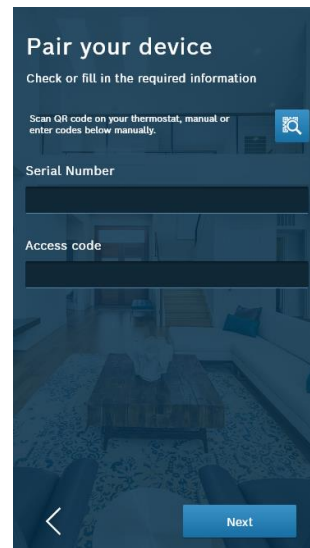

- Fill in your Bosch ID credentials (email address and password) and press “Login”:

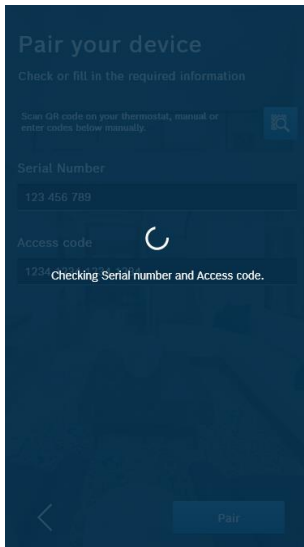

Step 3: Pair your device to your Bosch ID

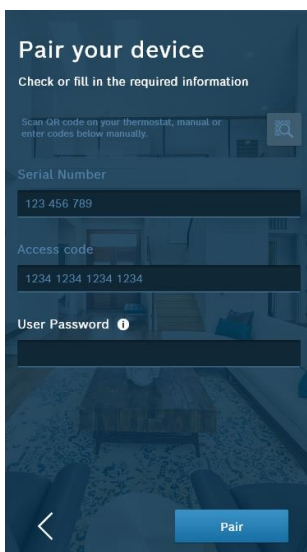

- Fill in the Serial Number and Access code of your device by using the QR code scanner or by filling in the codes manually
- Press “Next”:

- Wait for a moment while your Serial Number and Access code are being checked:

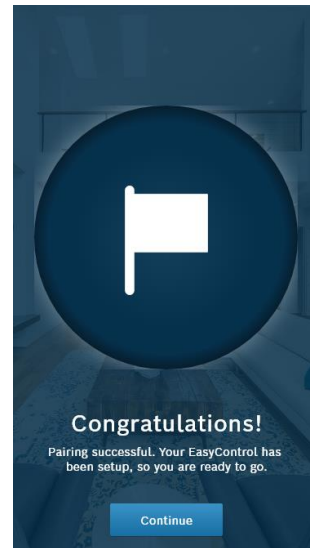

- Enter your User Password*
*The User Password has already been defined during the initial commissioning by the first user. Every other user needs this password to gain access to the device
- Press "Pair":

Step 4: Completion

- You have now finished the pairing of your device to your Bosch ID. Press "Continue" to go back to the EasyControl app home screen:

Congratulations, you have completed the pairing of your device!
From now on you can access your EasyControl using just your Bosch ID.
